PROFESSIONAL OVERVIEW

Passionate Engineering student with a strong foundation in Java and C++ programming, data structures, and object-oriented programming. Skilled in developing responsive web applications and solving complex problems through analytical thinking. Enthusiastic about learning emerging technologies, collaborating in team environments, and applying technical knowledge to build innovative and impactful solutions.

PROJECTS

1) SPECTROGUARD: AI-Powered Cyber Threat Detection - [Link](#)

Tech Stack: JavaScript, HTML, CSS, SHA-256, Machine Learning

Developed a cybersecurity toolkit with modules for password strength analysis, phishing detection, URL security checking, hash generation. Implemented security analysis techniques using entropy scoring, SHA-256 hashing, and machine learning concepts (SVM, Markov Model). Designed and deployed a responsive web application for real-time security assessment and user awareness.

2)Expense Tracker Website - [Link](#)

Tech Stack: HTML, CSS, JavaScript

Developed a fully responsive front-end web application for tracking daily expenses using HTML, CSS, and JavaScript. Features include: Login screen with email/password input and "Forgot Password" option. Expense input form with fields for amount, description, date, and category. Real-time expense total calculation and ability to clear all entries.

3)To-Do List Web - [Link](#)

Built an interactive task management web using **HTML**, **CSS**, and **JavaScript**. with a clean UI, color-coded actions, and responsive layout .Users can add, edit, delete tasks and filter them by status (All, Completed, In Progress)

4)Personal Portfolio Website - [Link](#)

Built a responsive portfolio using HTML, CSS, and JavaScript . Showcases skills, projects, and includes contact form and resume download

INTERSHIPS

➤ C++ Programming Intern (Sep 2024 – Oct 2024)

InternPe, Pune, India (WFH) - [LINK](#)

- Developed interactive games using C++. Applied OOP and debugging techniques for smooth gameplay. Enhanced user experience through efficient programming.

➤ Front-End Web Development Intern (Dec 2024 – Jan 2025)

CodTech IT Solutions, Hyderabad, India (WFH) - [LINK](#)

- Built responsive web pages using HTML, CSS, and JavaScript . Collaborated on modern UI design and optimization. Assisted in adding interactive features and improving user experience

EDUCATION

BE (Comp Engineer) (2022-2026)

MMIT Lohegaon, SPPU

SGPA-10.0(currently)

HSC (2022)

NMV Markal, HSC | **86.67%**

SSC (2020)

NMV Markal, SSC | **90.40%**

SOFT SKILLS

- Communication
- Teamwork
- Time management
- Leadership

TECHNICAL SKILLS

- Java ,C++
- HTML , CSS , Javascript
- MongoDB , SQL
- Documentation ,PPT
- Tools : Git and Github , VS code

ACHIEVEMENTS

- Java Full Stack Development Course Completion Certificate (6 Months) – TNS Foundation
- C++, Java, HTML, MongoDB, and Cloud Computing Course Completion Certificates
- Introduction to Threats and Network Security Associate Course Completion Certificate – Fortinet
- Secured First Rank in SSC, HSC, and B.E (CSE) Academics
